

Itinerario

Detalles del viaje: 5 días

Ida

● **Día 1** · España - Reykjavík

Presentación en el aeropuerto para embarcar en el vuelo con destino a Reykjavik. Llegada y traslado al hotel. Tiempo libre para pasear por esta pequeña ciudad, la capital situada más al norte del mundo. Alojamiento.

● **Día 2** · Reykjavík - Auroras Boreales - Reykjavík

Breakfast at hotel. The Northern Lights tour in Iceland takes you to see a spectacular natural phenomenon which happens during the winter months. The Northern Lights, also known as Aurora Borealis, are caused by the interaction of particles from the sun with the upper atmosphere near the North Pole. Overnight in Reykjavik.

● **Día 3** · Reykjavik

Breakfast at hotel. After, take a bus tour with City Sightseeing and explore Reykjavik at your leisure, with the opportunity to hop on and off at conveniently located bus stops. Overnight in Reykjavik.

● **Día 4** · Reykjavik – Circulo Dorado – Reykjavik

Breakfast at hotel. The Golden Circle tour allows you to visit some of Iceland's most stunning sights; Geysir geothermal area, the waterfall Gullfoss, and the UNESCO site Þingvellir National Park as well as to learn about growing vegetables in a country which doesn't get much daylight for most of the year. Geysir geothermal area is in South Iceland, near Laugarvatn Lake. The area is named after the biggest, and now mostly dormant, geyser Geysir and all geysers in the world owe their name to it. The biggest attraction today is the active Strokkur, which shoots up a column of water up to 30 metres into the air every few minutes. Gullfoss is one of the most famous waterfalls in Iceland and rightly so. The three-step waterfall is a part of the glacial river Hvítá and falls into a 62-metre deep canyon. For the first half of the 20th century, there were ideas about using the waterfall to generate electricity, but thankfully nothing came of it. The UNESCO site Þingvellir National Park is geologically and historically significant. Apart from being the location of the oldest parliament in the world, Alþingi, it is also a place where you can see the Mid-Atlantic ridge above ground. The Eurasian and North-American tectonic plates pull the country apart by a couple of centimetres per year. Friðheimar greenhouse cultivation centre is one of Iceland's biggest greenhouses. We will learn about the magic behind growing delicious, pesticide-free tomatoes with the aid of geothermal heat which Iceland has in abundance. Friðheimar uses pure Icelandic cold water for irrigation and gets help from about 600 bumblebees to pollinate the tomatoe. Return to Reykjavik for an overnight stay.

● **Día 5** · Reykjavík - España

Desayuno buffet en el hotel . Salida con destino al aeropuerto internacional de Reykiavík para tomar el vuelo de regreso a España. Llegada a la ciudad de origen y fin del viaje.

Vuelta
